

NEW RECYCLING AND FUND RAISING PROJECT

The 5th grades have undertaken for their service project a Capri Sun recycling project that also raises funds for the school.

All you have to do to help us is save your Capri Sun juice pouches, bring them to school, and put them in the trash can in the elementary hallway that says "Capri Suns Only." We will then mail them to TerraCycle who will recycle them and will give Bethany 2 cents for every bag. TerraCycle then turns them into fabulous products like lunch, book, and pencil bags. Check out all the neat products they have at www.terracycle.net.

It's a win-win; we're helping the earth AND raising money.
