

Melissa Tabor was born and raised in Delaware. She attended Neumann University where she earned her Bachelor's degree with a double minor in Biology and Psychology. I am so excited that she is finally able to move to the Middle school level and teach Science. Melissa has been an educator for 11 years. She discovered her passion for educating upon accepting a position at Bank of America. he was an educator for onboarding associates as well as designing curriculum for departments with areas of opportunity. She has a passion for education and working with students of all ages.

Melissa Tabor

This past year Melissa received her certification in Search and Teach, an early intervention program that ascertains the needs of young learners before they experience academic failure. Mrs. Tabor is very excited to combine her love of science with teaching. Her goal is to provide students with the opportunity to investigate God's earthly design in a classroom that fosters hands-on learning and intellectually stimulating environments. Mrs. Tabor has been married for 9 years to her husband Jon. They live in Cecil County, MD, and have four children that attend Bethany Christian School In her spare time, Mrs. Tabor loves to go camping with her family, watching College Football, and routing for Clemson.
